SUMMARY

As a Security Risk Analyst at Amazon, I contribute to safeguarding global operations by conducting security risk analysis and crisis management for thousands of sites. My work involves designing and implementing AI-powered automation solutions using Amazon Connect, AWS Lambda, and Large Language Models (LLMs) to modernize operational workflows and enable real-time incident management. I also analyze operational call data to identify and address system failures, ensuring data-driven improvements.

Graduate with a Master of Science in Computer and Information Systems Security (Information Assurance) from St. Cloud State University, with a strong foundation in cybersecurity, including risk management, network security, vulnerability assessment, and digital forensics, along with experience in AI, machine learning, and natural language processing (NLP). My experience includes supporting cybersecurity initiatives, developing digital forensic methodologies, and managing PCI DSS compliance processes. Through collaboration and innovation, I aim to enhance organizational security and drive operational efficiency.

CERTIFICATION

CompTIA Security+ ce | Issued: 08/2025 | Expires: 08/2028

[Credly Badge](#)

AWS Certified Cloud Practitioner | Issued: 01/2026 | Expires: 01/2029

[Credly Badge](#)

Certified in Cybersecurity (CC) – ISC2 | Issued: 06/2024 | Expires: 06/2027

PROFESSIONAL EXPERIENCE

Security Risk Analyst

Amazon | 2024 – Present | Goodyear, AZ

- Conduct security risk analysis and crisis management for a global security operations center, safeguarding personnel, data, and business operations across thousands of sites
- Design and deploy AI-powered automation solutions using Amazon Connect, Amazon Bedrock, AWS Lambda, Amazon DynamoDB, and Amazon Lex to modernize operational workflows
- Create conversational AI systems integrating Large Language Models (LLMs) with serverless infrastructure for real-time, voice-based incident triage and automated task creation
- Analyze operational call data to identify system failures, including speech recognition errors, process loops, and task creation failures - driving data-informed redesign decisions
- Build NLP pipelines with Python-based Lambda functions, DynamoDB data models, and AWS Systems Manager for fuzzy matching validation, duplicate detection, and workflow automation
- Evaluate emerging AWS AI services, including Amazon Nova Sonic for speech-to-speech capabilities and next-generation voice assistant architecture
- Won the Company Innovation Challenge - led development of an AI-powered documentation automation solution that streamlines analyst workflows
- Assess and mitigate security threats, vulnerabilities, and incidents to ensure system integrity and business continuity

Graduate Assistant – Information Systems Department

St. Cloud State University | 2024 | St. Cloud, MN

- Assisted in projects such as the Student Ambassador Program, Industry Partner Program (IPP), and Cybersecurity Awareness Week (CSAW).
- Provided research and administrative support for IT and cybersecurity initiatives.

Graduate Assistant – BCRL/Digital Forensics Lab

St. Cloud State University | 2023 | St. Cloud, MN

- Provided technical support and assisted in developing digital forensic methodologies.
- Researched emerging trends in digital forensics and contributed to curriculum improvements.
- Assisted in networking events to connect students with industry professionals.

Senior Support Analyst (PCI Compliance)

VikingCloud | 2022 | Warsaw, Poland

- Led PCI DSS compliance support, assisting clients in meeting security standards.

- Developed a training program for new analysts on payment security.
- Conducted team training on complex PCI compliance issues.

Support Analyst (PCI Compliance)

VikingCloud | 2021 – 2022 | Warsaw, Poland

- Provided **technical support** to clients for **PCI DSS compliance**.
- Analyzed customer feedback and collaborated with the product team for improvements.
- Kept up to date with **industry best practices** to enhance compliance processes.

EDUCATION

Master's in Information Assurance

St. Cloud State University | 2023 – 2024 | St. Cloud, MN

Bachelor's in Computer Science & IT

Spółeczna Akademia Nauk | 2018 – 2022 | Warsaw, Poland

TECHNICAL SKILLS

- **Programming & Development:** Python, JavaScript, SQL, HTML, CSS
- **Cloud & DevOps:** AWS, GCP, Azure, Docker, Singularity
- **Cybersecurity & Risk Management:** Vulnerability Assessment, Network Security, Compliance (PCI DSS)
- **Security Tools:** Wireshark, OpenVAS, Nessus, Kali Linux, Metasploitable
- **Operating Systems:** Windows, macOS, Ubuntu, Contiki OS
- **Databases:** MS SQL Server
- **AI ML, Gen AI, Agentic AI, Prompt Engineering, Conversational AI**

LANGUAGES & SOFT SKILLS

Languages: Nepali (Native), English (Fluent), Hindi (Fluent), Polish (Intermediate), German (Intermediate)

Soft Skills: Teamwork | Adaptability | Time Management | Problem-Solving | Work Ethic
